The Rice SWCD is offering custom interseeding into V4 to V7 corn on 30 inch rows and will run on a 12 row or a 16 row platform. Seed will be blown between the rows and not incorporated. We do all the work, including the tractor, operator, and seed. It's never been easier to try cover crops!

Here’s the details:

**Rice SWCD Interseeder Specifications**

- Plants 30” row widths
- 12 row or 16 row planter spacing

**Fees for Interseeding**

- Custom planting of seed: $10 per acre
- Seed mix: 18 lbs. Annual Ryegrass, 2 lbs. Bayou Kale, 1 lb. Purple Top Turnip
- Seed cost: $24/acre
- Each customer required to refill fuel in tractor upon completion of seeding (or pay additional fee for fuel)
